MEMORANDUM FOR THE RECORD

SUBJECT: Major General Daniel G. Graham's Comments

1. Met with Frank Slatinshek, Chief Counsel, House Armed Services Committee, who inquired about the press reports concerning the Army article by Major General Daniel G. Graham. Slatinshek noted that General Graham apparently was Chief of the Current Intelligence Indications and Estimates Division in Saigon during the period when Army assessment of Vietcong and North Vietnamese troop strength was questioned by Sam Adams of CIA. Slatinshek asked, if it is possible, that we provide the Vietcong and North Vietnamese strength figures as determined by General Graham and his people; as determined by CIA (by Sam Adams) if it was different; and by the community if determinations were reached by the community. He would also appreciate a summary roundup of what hindsight shows the actual figures to have been during the period.
